Dear Mr. Smith:

We have had no response in our attempts to have you or your representatives file an application with this Division seeking state approval of your Sunny Side Tar Sands operations. If you continue to neglect this issue, you leave us no other alternative than to contact the Attorney General's Office for purposes of enjoining your operations until you have complied with Title 40-6 and Title 40-8 of Utah Code Annotated 1953.

Please note that at this time you are conducting an illegal operation and as such, may not be funded by either the state nor the federal government. You must file an application with this office and gain approval prior to the commencement of any mining or drilling operations. If you have not made arrangements to appear before the Board of Oil, Gas and Mining by April 25, 1980, we will instigate proceedings to have your operations suspended in this state.

Sincerely,

DIVISION OF OIL, GAS AND MINING
